## Aesthetic Skin Care Services

### INTENSE PULSED LIGHT (IPL)

#### Intense Pulsed Light (IPL)

The Intense Pulsed Light (IPL) process uses pulsed light to treat the following conditions:

**Pigmented Lesions** (Sunsports or Age Spots) - These lesions occur in response to sun-induced skin injury and appear as dark brown circles, known as Solar Lentigines. There can also be diffuse browning of the skin, known as actinic bronzing.

**Vascular Lesions** (broken capillaries) - superficial blue, red, or purple veins under the skin's surface. Some common types include rosacea (facial inflammation) and Spider Veins (tiny vessels that appear near the surface of the face).

You don't have to live with these imperfections! Our IPL treatments will remove your pigmented and vascular lesions to improve your skin texture and tone with quick, easy treatments and no down time to recover.

Price A.Q.

### CHEMICAL PEEL TREATMENTS

Chemical peels come from a family of natural compounds found in plants, fruits and sour milk. These treatments can effectively reduce fine wrinkles, improve the appearance of aged and sun damaged skin. Some of these acids can also dissolve acne causing dirt and oil. Most peeling treatments are progressive meaning multiple treatments must be performed to achieve desired effects.

#### Mild Peels

Progressive treatments of mild chemical applications which, although very little visible exfoliation occurs, significantly improves the texture and tone of your skin. Generally no "downtime" is associated with these mild treatments.

#### Moderate Peels

More aggressive than the Mild peel. Some "downtime" should be expected with mild flaking occurs within 2-5 days of the treatment.

#### Aggressive Peels

The most aggressive of non-physician applied peeling agents. "Downtime" should be expected with flaking occurring up to 10 days post treatment.

Face Only	(45 minutes)	\$90
Face, Neck & Décolleté	(60 minutes)	\$110

Hand Treatment	(20 minutes)	\$40
Add on with any other treatment		\$20

### MICRODERMABRASION

Microdermabrasion is a skin-freshening technique that helps repair facial skin damaged by a beating from the sun and the normal effects of aging. We utilize a device similar to fine sandblaster to spray tiny crystals across the face, mixing gentle abrasion with suction to remove the dead, outer layer of skin. As with other skin rejuvenation techniques, more than one treatment may be needed to reduce or remove fine wrinkles and unwanted pigmentation.

Face Only	(60 minutes)	\$150
Face & Neck	(60 minutes)	\$170
Face, Neck & Décolleté	(60 minutes)	\$185
Hand Treatment	(20 minutes)	\$50

## Web Special! Microdermabrasion & Chemical Peel Combo

Combination of these two exfoliating treatments can give amazing results. Treatments are alternated in separate sessions 2 weeks apart.

2 alternating treatments (1 of each type)	\$238
6 alternating treatments (3 of each type)	\$648

## FACIAL TREATMENTS

All facials begin with a thorough skin analysis to ensure that your treatment is personalized for your skin type. Each treatment focuses on the specific needs of your skin. Our professionals will explain to you the most effective way to care for your skin and design an easy and effective home care program.

### Skin Analysis Facial

A relaxing and educational treatment which identifies your personal skin care issues and the best treatment alternatives. A skin care regimen is prescribed and homeopathic and vitamin therapies will be discussed.

45 minutes ...\$50

### The Essential Facial

This intense, hydrating treatment includes a thorough cleansing, soothing steam, exfoliation, extractions, customized mask and an SPF moisturizer. The classic, Essential Facial creates the perfect foundation for on-going maintenance. Your skin will respond immediately with improved tone and texture.

60 minutes...\$90

### The Lightening Lift Facial

This anti-aging treatment, augmented with a customized pigmentation resurfacing cocktail, takes the Essential Facial to the next level in skin care. Active Alpha-Hydroxy ingredients are formulated to address the special needs of your skin while providing nourishment and protection from environmental aggressions.

Microdermabrasion... + \$75

Lash or brow enhancement... 50% off reg. price

## PRE AND POST OPERATIVE SKIN CARE

Never is the health of your skin more crucial than prior to and after a medical treatment. The following treatments are designed specifically to help you heal faster, healthier and have you look your best:

### Lymph Drainage

A must for pre and post operative surgery. This relaxing treatment accelerates the recovery process of plastic surgery. This method dramatically improves the skin condition by helping the body remove excess fluids in areas affected by the surgical procedure. This allows healthier fluids and nutrients to enter the skin tissue, thus promoting the healing and renewal process of the skin. For best results a series of ten 30 minute relaxing sessions are recommended. Three before and 7 after the operation.

30 minutes... \$50

### Incision Area Microdermabrasion

Microdermabrasion around the incision areas aids in healing and minimizes scarring. For best results six treatments scheduled seven days apart are recommended.

30 minutes... \$75
